About Me

Meticulous Web Developer with a passion for metrics, responsive website design and beating former "best-yets." Firm believer in the mobile-first approach. Passionate about building world class web applications. Solution-driven and adept at contributing to highly collaborative work environment, finding solutions and determining customer satisfaction. I'm motivated to learn, grow and excel in the Software Industry.

Work Experience

Freelancer: 2019 - Current

I have worked on many projects as a freelancer since 2019 each with specific target goals and I have completed them perfectly.

- Built and styled fully responsive websites, transitioning legacy presentations to simultaneous mobile-friendly versions.
- Created wireframes and prototypes for web-based applications, including responsive designs to accommodate multiple platforms.
- Edited video clips to fit the length of a YouTube commercial, cutting unnecessary scenes and adding transitions for smooth flow.
- Implemented new responsive website approach which increased mobile traffic by 20%.
- Assisted with design and layout of promotional materials for company social media, blog, YouTube channel, website, email campaigns, and monthly newsletters; created content graphics & developed custom visuals to fit the brand's voice.
- Organized presentations in Microsoft Power Point and embedded graphics to the presentations.
